STOMACH UPSET?

Get Immediate and Effective Relief by Using Hyomei.

Hyomei is nature's true remedy for catarrh. There is no stomach dosing—you breathe it. When using this treatment, you breathe healing balsams and effectively reach the most remote air cells of the throat, nose and lungs, and catarrhal germs are destroyed—quick and sure relief results. Hyomei often restores health to chronic cases that had given up all hope of recovery. Its best action is at the start of the disease when the breath is becoming offensive, and constant sneezing, discharges from the nose, droppings in the throat, or that choked up feeling begin to make life a burden. At the first symptom of catarrhal trouble, surely use Hyomei. Ask W. H. Sheldon for the complete outfit, \$1.00. He will refund the money if it does not give satisfaction.

STATE NEWS.

Little Gerald Covel, 14 months old, of Melndoe Falls, was seriously burned Thursday by pulling a lighted lamp over on himself, setting his clothes on fire.

Ex-Gov. and Mrs. G. H. Prouty of Newport have started on a trip abroad, sailing from Montreal. They will first visit in Dudley, England.

The "Carroll S. Page March" was played at the White House Saturday by the United States Marine band. The music is composed by Miss Myrtle C. Wallace of Cambridge.

Mrs. Emma Washburn of Montpelier is in a serious condition as the result of being struck by a bicycle Wednesday and knocked unconscious. It is feared that she suffered internal injuries.

E. C. Bond of Union village, who has been ill for five years as the result of a bicycle accident, died Sunday Wednesday. A post mortem examination revealed the fact that he had lived for five years with practically a broken neck.

The city attorney and the fire chief of Montpelier have been authorized to draft an ordinance regarding the cleaning and repair of flues and chimneys. The ordinance will require citizens to clean their chimneys at least once a year.

On the Badger farm near Pierce's mill at St. Johnsbury the 29th child has been born to Mr. and Mrs. Ludwig Gosselin. The father is 53 and the mother 41. Of the 20 children born to them 14 are now living, and 10 of them at home. Of the 10 at home the oldest is 17 and the youngest one week.

An attempt to escape from the county jail at St. Johnsbury was foiled Sunday night, after one bar had been sawed and broken off a window. Four men held on serious charges were involved and they were working on an outside window when discovered. They were then placed in basement cells, where the way to liberty is not so easy.

Patrick King, a mason helper employed by the Boston and Maine in cement construction work at Orleans, was killed there last Thursday by stepping in front of the way freight. No reason can be found for the accident. He apparently had forgotten or did not hear the approaching train.

C. C. Barnes of Pittsford had the misfortune to break his collar bone during football practice at Norwich university Friday afternoon. He was tackling the dummy when the accident occurred. The young man showed much grit and few of the members of the squad knew that he was injured. He will not be able to play any more this season.

Mrs. George Brooks of Northfield narrowly escaped a fatal accident while returning from the fair in that place. A team, in passing, collided with the Brooks carriage and the vehicle was overturned, both horse and carriage going down the embankment near the state rifle range. Mrs. Brooks was badly injured, receiving many bruises, while her child which she held in her arms escaped without injury. Mrs. Brooks was taken in a passing automobile to South Northfield, where she is being cared for until able to be removed to her home on west hill.

R. L. Kingsland of Vergennes has in his possession a fac-simile of a deed by which "Ethan Allen, Gentleman," for the sum of 12 pounds and 10 shillings, did convey to the "Widow Ruth Brush" of Bennington seven acres of land, "situated in the northwest corner of New Haven, adjoining the Otter Creek, including seven acres, and no more." The deed was signed "in the presents of" two witnesses, whose names have suffered in the process of producing the fac-simile, which leaves them looking like David and Joseph Day. The original of this deed, though badly worn in a fairly good state of preservation at Potsdam, N. Y.

Strengthen Weak Kidneys.

Don't suffer longer with weak kidneys. You can get prompt relief by taking Electric Bitters, that wonderful remedy praised by women everywhere. Start with a bottle to-day, you will soon feel like a new woman with ambition to work, without fear of pain. Mr. John Dowling of San Francisco, writes: "Gratitude for the wonderful effect of Electric Bitters prompts me to write. It cured my wife when all else failed." Good for the liver as well. Nothing better for indigestion or biliousness. Price 50 and \$1.00 at Park Drug Store.

"Mrs. Youngkuppel says her baby keeps knocking her glasses on the floor, and it costs a lot for repairs."
"Why don't she have DR. BARTER drill a hole in the lens and put on one of his nice chains for security?"

Best-Hated of Farm Tasks

ON the spreaderless farm the thought of the great heaps of manure piling up constantly in barn yards, stables, and stalls, is a gloomy one. Those piles mean much disagreeable and hard work. It must all be loaded on high wagons. Then every forkful must be shaken apart and spread.

Compare that old-fashioned method with the I H C spreader way. You pitch the manure into the spreader box, only waist high, drive out and—the machine does all the rest. And it spreads evenly and far less wastefully.

I H C Manure Spreaders

are farm necessities. The man who uses one will get the price of it back in increased crops before its newness has worn off.

Every detail and feature counts. They do best work always and stand every strain for years. They are made in all styles and sizes, for small farms and large, low and high machines, frames of braced and trussed steel. Uphill or down, or on the level, the apron drive assures even spreading, and the covering of corners is assured by rear axle differentials. In all styles the rear axle is placed so that it carries near three-fourths of the load. This, with the wide-rimmed wheels with Z-shaped lugs, makes for plenty of tractive power. Winding of the beater is prevented by large diameter and the beater teeth are long, strong and chisel pointed.

The I H C spreader lines will interest you. See them at the local dealer's. Get catalogues from him, or write us.
